AETHUSA CYNAPIUM:  
“MILK INTOXICATION”

This remedy is one of the most important remedies for milk intolerance in infants. Milk is vomited in large curds, and then the child will become very drowsy and go into a deep sleep. He will crave milk and be Thirstless for other liquids. It is useful for childhood convulsions, diarrhea (especially during dentition).

*Suits Well: Gastrointestinal. Severe vomiting and diarrhea with dehydration. Tendency to eruptions, rashes, herpes. (even on face). Wrinkle old looking face, even in infants. Eruption on tip of the nose (Caust) Love of animals…colleces them. Reserved with inward emotions. Loners. Infants and teething children and cholera disorders of children and the elderly.  
*Reserved people with inwardly strong emotions. Feel unconnected to other people. Loners. Lives in his own sentimental world. Loves Animals, talks to animals.

~Effects the brain and nervous system, digestion, neck, back of head, glands, liver.  

Infant fails to thrive. Can barely hold head up. Weak.

Remedies helpful in Morning Sickness of Pregnancy: Inability to hold down any food. For vomiting during pregnancy that’s very spasmodic and projectile.

Anxiety: When alone. As the disease progresses the patient becomes more and more retired in his disposition and more inclined to weep.

Constipation/Diarrhea: Cholera disorders. Undigested, thin, greenish stools. Preceded by colic with tenesmus followed by exhaustion drowsiness. Yellowish-green, slimy diarrhea. Or Constipation as if all bowel action is lost.

Ears: Feel blocked. Hissing sound, sensation as if something hot were steaming out.
AETHUSA CYNAPIUM:
“MILK INTOLERANCE”
